

ESAD ERASMUS+ 3rd International week 2023

May
8-10

30
E+

Dear Partners

ESAD commemorate this academic year **30 years of Erasmus Programme**. Because that, we would like to organize our **3rd International Week** between 8 and 12 May. The main goals are:

- celebrate together our friendship;
- exchange professional experiences, expertise and networking;
- spread ideas and good practices.

Due the fruitful cooperation during these years between our Institutions we would like to invite someone of your College/University (teacher or other staff) to participate within the Erasmus + Programme. Participants are invited to present his/her own academic Institution and R&D projects concerning the following topics:

1. The Erasmus Programme and Internationalisation of higher education
2. The future of arts and design education: re-evaluating current teaching-learning methods in order to prepare students for future realities. Prepare students to become more flexible and adaptable to environmental changes and market uncertainty, providing them not only with skills to know how to design, but also to communicate different needs to, and with, different cultures.

To participate each Institutions must make the Registration till **February 10th** and send till **March 10th** the following documents:

- a paper with 3-4 pages maximum (separate images, Times New Roman/size 12/1,5 space) in the national language and in English;
- a digital poster to be printed in ESAD (size A1) with the School presentation for the Posters Exhibition during the week;
- the logo of the School.

Preliminary Programme
